To All Regular and Associate Members,

Welcome to the new Alexandria Police Association website. This new site is the latest in the upgrades to the Association Hall to benefit the membership. In addition to the website, we upgraded the cable and phone service to Comcast. A bundled service was chosen with considerable monthly savings. The Association Hall is now wireless, and is free to all members. The network name and password is posted in the members only section of the Association Hall. Although at this time there is not a computer for the members to use to access the internet, please feel free to bring your laptop into the Association Hall.

As you can see by the capabilities of this site, our goal is to post the majority of Association business on this site, slowly reducing the use of the city email services. The city and Chief Baker have been gracious to allow the Association access to the city email system in order for us to distribute correspondence to our membership. To ensure this is not abused, more and more correspondence will be posted on this site to communicate with the membership. Please check back here often for updates and new information.

Thank You,

Eric R. Lemke
President
